

ATLANTIS DIVERS PROFESIONAL DIVER TRAINING

NAUI Instructor Trainer (ITW)

Leadership Course

NAUI instructor trainers can conduct Staff Training Workshops, Instructor Training Programs (ITP), Instructor Crossover Programs (ICP), and Instructor Preparatory Programs (PREP). NAUI Instructor Trainers work with a NAUI Course Director to conduct the Instructor Qualification Program (IQP) for the candidate's final evaluation.

NAUI Instructor Trainer is a formal leadership designation and not a certification. A NAUI Instructor Trainer has demonstrated experience and competency in the training, evaluating and counseling of NAUI Instructor Candidates. Designation as a NAUI Instructor Trainer may only be awarded by the NAUI Training Department after completion of a NAUI Instructor Trainer Workshop conducted by an active NAUI Course Director.

Learn How To Qualify NAUI Instructors:

We teach techniques for organizing, conducting a NAUI ITC and a Staff Training Workshop. You will develop skills for evaluating and counseling instructor candidates. This hands-on workshop will review and practice the water skills needed when conducting training in a NAUI ITC. Learn From the Best Instructor Trainers. The most experienced, most qualified instructors will lead you to become a NAUI Instructor Trainer. Any instructor will benefit from this training. If you are an experienced instructor, we will increase your knowledge and skills. If you are a new instructor, we will help you become a better scuba instructor.

Qualified Not Just Certified

This is a pass/fail program. Each instructor will need to demonstrate the ability to successfully conduct a NAUI Instructor Program and STW.
