

Why the Atlantis Divers choice is the right choice for your life support purchase!

The pricing at Atlantis Divers is comparable to the pricing found on the internet and discount vendors. We differ in that we offer the following service that no other retailer (internet or store) provides:

1. All regulators and life-support manufacturers are not only top quality but also tested and used by our Instructors. No Atlantis Divers staff is paid on commission to sell you certain gear. We are not going to “sell” you life support but provide you with the information so you can make an informed decision about the right life support for you and your diving adventures. The sales staff at Atlantis Divers has over twenty years experience in providing expert advice, support and service of life support – not only to the recreational dive community, but also Police, Fire and EMS and all public safety dive teams.
2. All life support are dealer prepared, assembled and certified “ready to dive” by an Atlantis Divers technician before it leaves the store. This is the main reason we do not sell pre-built packages on the internet. Each diver has specific needs and requirements and each piece of dive gear has its specific needs and requirements. The professionals of Atlantis Divers will work to ensure your gear is set up correctly and meets all manufacturers’ specifications, as well as your expectations and we will continue to work until it is right.
3. All life support purchases (regulator, BCD or both) come with a free “check dive.” Atlantis Divers provides free instruction, pool time and air so you dive and understand the operation of your new life support before your next dive trip.
4. Free Bench Testing is provided to you for as long as you own your life support purchased at Atlantis Divers. Atlantis Divers is the only shop on the southside that runs a full manufacturer’s test bench and is able to ascertain whether or not your life support is performing at the correct specifications. This gives the purchaser confidence in their life support system.
5. NO life support sold at Atlantis is refurbished, returned or gray market dive gear. Atlantis Divers only sells life support for which we are authorized vendors and does not engage in aftermarket sales of life support. We stand behind the quality of all dive gear sold.

Customize your own package!

All dive shops offer set packages at a discounted rate – one BCD, one regulator/octopus, one computer or a set of gauges - but Atlantis Divers doesn’t believe that one package fits all divers. Atlantis Divers has a different philosophy and does it a little differently – you assemble your custom package specific to your needs and receive an automatic package discount. Atlantis Divers also insists on passing on manufacturer’s deals to our customers. Again, this means that your package is customized to your needs.

Atlantis Divers has provided dive gear to recreational divers, police, fire, and EMS public safety divers, from Texas to Europe. Atlantis Divers is the pro’s choice...that’s why Atlantis Divers is the right choice!
